## Helpful Information

### **Wl.fwd.—WOOL FORWARD.**

This method is used in knitting. The wool is at the back of the work after knitting a st. and must be passed between the 2 needles to bring it to the front of the work as if for purling. Insert the point of the right hand needle into the next 2 sts. on the left hand needle and carrying the wool over and round the point of the right hand needle knit the 2 sts. together in the usual way. The wool is again at the back of the work ready for the next knit st.

### **W.R.N.—WOOL ROUND NEEDLE.**

This method is used when making a Wl.fwd. st. in purling. The wool is already in front of the needle after purling a st. so wind the wool right round the right hand needle once before purling the following 2 sts. together.

### **W.O.N.—WOOL OVER NEEDLE.**

This method is used when making a Wl.fwd. after purling a st. and before knitting the next st. The wool is already in front of the needle after the purled st. so leaving the wool in front, knit the next 2 sts. together in the usual way.

### **t.b.l.—THROUGH BACK OF LOOPS.**

This method is often used instead of p.s.s.o. Insert the point of the right hand needle through the back of 2 loops on the left hand needle instead of the front and knit the 2 sts. together in the usual way. Instructions may also read “knit through back of st.”. This makes a twisted st.

### **p.s.s.o.—PASS SLIPPED ST. OVER.**

Used in Fancy patterns and as a method of decreasing. Put the point of the right hand needle into the next st. on the left hand needle and slip the st. onto the right hand needle without knitting it. Knit or purl the next st. then pull or pass the slipped st. over the knitted or purled st. and let it drop off the needle.

### **Sl. st.—SLIPPED ST.**

Used when transferring a stitch from the left hand needle to the right hand needle, without knitting or purling it. Put the point of the right hand needle into the next st. on the left hand needle and pass the st. onto the right hand needle without knitting it. Always slip a st. knitways unless instructions tell you differently.

### **TO SEW SEAMS**

Lay the edges of worked pieces together, flat, and sew on the wrong side, taking a st. with a st. Stretch the seams very slightly when sewing, otherwise they will not be as elastic as the rest of the work.

### **TO CRAFT STITCHES**

★Inserting the wool needle as if for knitting into 1st. st. of front needle, draw it through the st. and slip the latter off the needle; inserting the needle, as if for purling into 2nd st. of front needle, draw wool through and let the st. remain on the needle; taking the wool under front needle and inserting the wool needle, as if for purling, into 1st. st. of back needle, draw the wool through this st. and slip the latter off the needle; inserting the needle, as if for knitting, into the 2nd st. of back needle, draw the wool through and let the st. remain on the needle; bring the wool forward under the needle and repeat from ★ until all sts. are worked off, darning in the end of wool securely.
